

REPLACING YOUR HEATER OR AC?

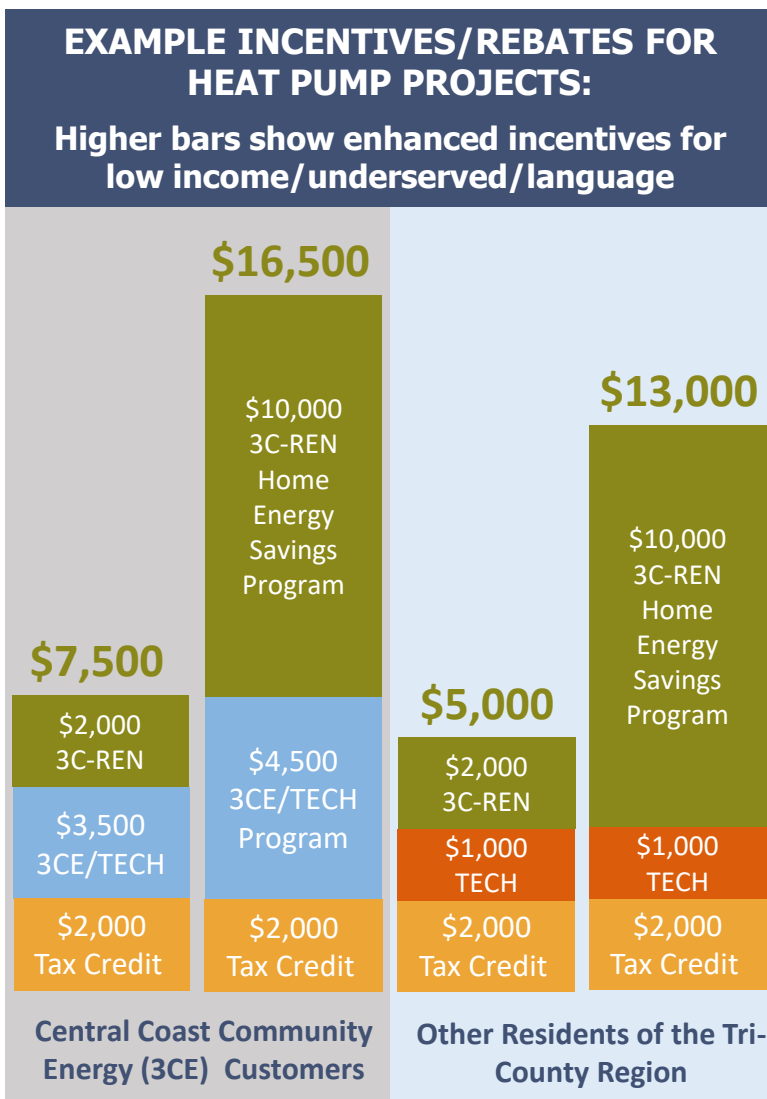

HOME ENERGY SAVINGS

Save BIG with incentives and tax credits that reduce the cost of an energy efficient heat pump that offers heating *and* cooling!

Electric heat pumps are ~3x more efficient than natural gas heaters, offer single-unit heating/cooling, and contribute to a healthier home by removing gas combustion.

Large incentives and tax credits are available to reduce the cost of installing a heat pump, with the biggest savings for customers that don't speak English as their primary language, live in underserved communities, and/or qualify for discounted utility rates based on their income.

GET STARTED

Residents must work with contractors that are enrolled in the relevant programs to access incentives. Contractors apply for incentives.

- **Connect with a 3C-REN contractor**
www.3c-ren.org/for-residents
- **Ask a contractor to enroll in 3C-REN**
www.3c-ren.org/contractor-participation
- **Connect with a 3CE/TECH contractor**
switchison.cleanenergyconnection.org/tech-clean-california-contractors
- **Ask a contractor to enroll in 3CE/TECH**

PROGRAM DETAILS

3C-REN'S Home Energy Savings incentives:

For residents of single family homes in San Luis Obispo, Santa Barbara and Ventura Counties. Save ~\$2,000-\$10,000 when you replace inefficient electric OR natural gas equipment with a heat pump. Savings are highest for CARE/FERA rate customers AND residents that primarily speak a language other than English at home. Incentives vary depending on the amount of gas or electricity that the heater used before replacement. Talk to your contractor for more details and to get a quote specific to your home. For more information visit: www.3c-ren.org/for-residents

3CE's Electrify Your Home incentives:

For customers enrolled in 3CE (Central Coast Community Energy). Save up to \$3,500 for HVAC heat pump when you replace equipment that runs on natural gas, with an additional \$1,000 available for CARE/FERA rate customers. Incentives can also cover electric panel upgrades. For more information visit: 3cenergy.org/rebates/electrify-your-home/

TECH Clean California Incentives:

Customers throughout the state qualify for \$1,000 incentives for HVAC heat pumps (beginning April, 2023). For 3CE customers, this incentive is already included in the Electrify Your Home values shown above. For more information visit: incentives.switchison.org

Federal Inflation Reduction Act (IRA) tax credit:

All households in the US are eligible for tax credits through the Inflation Reduction Act! Save up to \$2,000 on heat pumps with the IRA's new Residential Energy Efficiency Tax Credit. This information sheet should not be considered tax advice. For more information visit:
