Free Training for Plumbers on Heat Pump Water Heater Installs

Heat pump water heaters (HPWHs) are where California is headed, and these events aim to smooth that transition. Learn from experts, Nick Brown and Gary Klein, how to install heat pump water heaters so they provide reliable and efficient hot water for your projects. Designed for plumbers and HVAC technicians with hands-on equipment, these trainings will be useful to all audiences.

WHAT YOU WILL LEARN:

- Why we need HPWHs
- How HPWHs are different from typical water heaters
- Practical skills through a hands-on demonstration on installing a HPWH in a closet
- Importance of air flow
- Do's and don'ts of installation based on real-life examples

WHAT'S IN IT FOR YOU:

- Learn about rebates up to \$3,500 for your projects
- Higher revenue per job
- Current product offerings from various manufacturers
- No gas line required

Light refreshments will be served.

Trainings are offered at four locations throughout the tri-county region.

***In Partnership with Ventura
County Contractors Association***
Tuesday, December 3

7:30-9:00am

Hansen's Plumbing
