

Preparing Buildings for Wildfire Resiliency in 2025 and Beyond

Join us to learn about wildfire resiliency in our buildings. This FREE event is open to local building professionals and community members.

A panel of experts will explore:

- How code updates prompted by wildfires, such as AB 130 and Executive Order N-29-25, affect the current rebuilding process
- Strategies to strengthen buildings' wildfire resiliency
- Ways wildfire-resilient home design impacts firefighting strategies
- Perspectives on recent wildfire rebuilding efforts

Join us for a complimentary networking lunch with the panel and attendees following the presentations.

POST-FORUM EVENT

Net Zero Building Tour

1:30 pm – 2:30 pm

After the forum, join us for a special tour of a net zero energy building, the County of Santa Barbara Emergency Operations Center & Regional Fire Communications Center. This event is optional, be sure to add a free tour ticket to your registration today!
